Professional Summary

AI Engineer and Automation Architect with **8+ years of domain experience** in education operations and **3 years in content creation**. Build production LLM applications in Python using the **Anthropic Claude API**: autonomous agents, tool use, streaming, and structured data extraction. Built **Institura**, a live SaaS with 30+ modules **saving clients \$12,000+/yr**. Design autonomous AI workflows using **n8n and MCP servers** that eliminate manual operations and save businesses real money.

Work Experience

AI Engineer | LLM Systems & Automation

(May 2025 - May 2026)

Aifyy | n8n + AI Workflow Systems

- AI Proposal Generator:** Collects context from multiple sales calls, generates branded PandaDoc proposals with dynamic pricing in **52 seconds** (vs 2-3 days). 8 tools orchestrated: Fathom, Claude, PandaDoc, Stripe, Gmail, Google Drive
- Meeting Intelligence:** Auto-captures call transcripts, classifies client vs internal, extracts action items, tracks call sequencing in CRM. **Zero follow-ups missed**
- Prospect Research Agent:** Scrapes websites, extracts intelligence via GPT-4.1, generates personalized cold email icebreakers. **500+ prospects per run**
- Instagram Lead Scraper:** Automated influencer discovery via SerpAPI. **1000s of profiles in minutes** vs weeks of manual research

Founder

(Dec 2025 - Present)

[Institura.com](#), Mumbai | AI Operating System for Coaching Institutes [Link](#)

- Built a production SaaS** with 30+ modules (timetable, fees, testing, attendance, payroll, homework, partner CRM) using Claude Code. Serving live coaching institutes
- AI Timetable Generation:** Claude API produces conflict-free timetables in **60 seconds** (vs 10-15 hours manually). No competitor in India offers this
- AI Question Paper Creator:** Mathpix OCR extracts questions from PDFs, auto-formats with logo and watermark. **Days to minutes**
- Saving \$12,000+/yr** in operational staff costs per institute (admin + typist + data entry roles automated)

Content Creator & AI Systems

(2022 - Present)

Automate With Ashish (YouTube) | LinkedIn

- Content Accelerator:** Autonomous pipeline using Claude Code + MCP servers across YouTube + LinkedIn. Idea pipeline, production stages, archive, research banks. Saved **12-20 hrs/week**
- Second Brain:** Full PARA knowledge management system in Notion (Inbox, Tasks, Projects, Areas, Resources, Notes, Archive) with integrated weekly scheduling

Mathematics Faculty

(2018 - 2025)

Vidyalankar, Mumbai (2021-2025) | Career Point, Kota (2018-2021)

- 8 years teaching IIT-JEE Mathematics** across two of India's top coaching brands. Domain experience that directly informed Institura's design
- 3 years creating educational content** (Crack The Maths YouTube channel for IIT-JEE), which built the foundation for the autonomous content pipeline used today

Education & Skills

VIT Vellore (2015 - 2019) B.Tech in Mechanical Engineering **CGPA - 8.09**

Languages: Python

AI & LLM: Anthropic Claude API, AI Agents, Tool Use, RAG Systems, LLM Orchestration, Streaming, Structured Outputs, Prompt Caching

Automation: n8n, Make.com, MCP Servers, Webhooks

LLMs: Claude, OpenAI, Gemini

Data: Airtable, Supabase, Notion, Google Sheets

Integrations: PandaDoc, Stripe, Razorpay, Slack, Gmail, Google Drive, Fathom, Apify, Calendly

Tools: Claude Code, Git, GitHub

Continuous Learning

- Completing **28-week AI Engineering program**: Python, LLM Applications, Agent Systems, RAG Pipelines, LangGraph, FastAPI, and Production Deployment
- Active **DSA practice on NeetCode**: arrays, hashmaps, two pointers
- YouTube channel:** teaching Claude Code and AI automation in Hinglish, **18+ videos published**
