PROFESSIONAL SUMMARY

AI automation engineer who builds LLM-powered systems that replace manual operations for businesses, from the first conversation with the operator to the shipped workflow. Built **Institura** solo: a production SaaS with 30+ modules running **3 coaching institutes with 1,200+ students**, replacing roughly **₹10L+/yr in staff cost per institute**. Personally onboard and train every customer, then ship improvements from their feedback. At Aifyy, shipped Claude and n8n systems that cut proposal turnaround from 2-3 days to **52 seconds**. Build with Python, the **Anthropic Claude API**, **n8n** and **MCP servers**. Before engineering, spent **6+ years as IIT-JEE Mathematics faculty**: years of explaining complex ideas to non-technical people, and first-hand knowledge of the institutes Institura now runs on.

WORK EXPERIENCE

BUILT & OPERATES INSTITURA

(Dec 2025 - Present)

Institura, Mumbai | AI Operating System for Coaching Institutes | institura.com

- **Built solo, live at 3 institutes, 1,200+ students:** 30+ modules covering timetable, fees, testing, attendance, payroll, homework and partner CRM. One system for the institute's day-to-day operations
- **Own the full customer loop:** Onboard each institute personally, train their staff on the platform, collect feedback and ship improvements back into the product
- **AI Timetable Generation:** Claude API produces conflict-free timetables in **60 seconds** (vs 10-15 hours manually)
- **AI Question Paper Creator:** Mathpix OCR extracts questions from PDFs, auto-formats with the institute's logo and watermark. **Days to minutes**
- **Replaces roughly ₹10L+/yr per institute** in operational staff cost (admin, typist and data entry roles automated)

AI ENGINEER | LLM SYSTEMS & AUTOMATION

(May 2025 - May 2026)

Aifyy | Internal AI automation for sales and client operations

- **AI Proposal Generator:** Replaced a 2-3 day manual process. Pulls context from multiple sales calls and generates branded PandaDoc proposals with dynamic pricing in **52 seconds**. 8 tools orchestrated: Fathom, Claude, Airtable, PandaDoc, Stripe, Gmail, Google Drive, Calendly
- **Meeting Intelligence:** Auto-captures call transcripts, classifies client vs internal, extracts action items, tracks call sequencing in CRM. **Zero manual notes**
- **Prospect Research Agent:** Scrapes websites, extracts intelligence via GPT-4.1, generates personalised cold email icebreakers. **500+ prospects per run**
- **Instagram Lead Scraper:** Automated influencer discovery via SerpAPI. **1000s of profiles in minutes** vs weeks of manual research

MATHEMATICS FACULTY

(2019 - 2025)

Vidyalankar, Mumbai (2021-2025) | Career Point, Kota (2019-2021)

- **6+ years teaching IIT-JEE Mathematics** across two of India's top coaching brands. Domain experience that directly informed Institura's design
- **3 years creating educational content** (Crack The Maths YouTube channel for IIT-JEE)

EDUCATION & SKILLS

VIT VELLORE

(2015 - 2019) B.Tech in Mechanical Engineering **CGPA - 8.09**

Languages: Python

AI & LLM: Anthropic Claude API, Anthropic SDK, AI Agents, Tool Use, RAG Pipelines (retrieval, reranking, generation), LLM Orchestration

Automation: n8n, Make.com, MCP Servers, Webhooks

LLMs: Claude, OpenAI, Gemini, OpenRouter, Voyage AI (embeddings, reranking)

Data: Airtable, Supabase, ChromaDB, Notion, Google Sheets

Integrations: PandaDoc, Stripe, Razorpay, Slack, Gmail, Google Drive, Fathom, Apify, Calendly, SerpAPI, Mathpix

Tools: Claude Code, Git, GitHub
